

Letter of Registration and Return

March - 2010

Greetings unto the populace of the Adrian Empire!

During **January** we returned eight proposals, released fifty eight obsolete grants of arms, protected forty nine historic devices of past crowns and subdivisions, transferred eleven devices and registered five new grants of arms!

Remember, the grant of arms proposal form has been updated. The old forms became obsolete on February 15th and are no longer acceptable. Proposals on old forms will be returned.

At present, plans are moving forward for the great heraldic competition between the subdivisions at banner war. The autocrat or their representative at each banner war location will take pictures of all the heraldry on display for each subdivision in attendance. Those pictures will be sent to the Imperial Sovereign of Arms, scanned into electronic form and placed on cd. Discs containing the images will be sent to the judges who will each cast a vote for the winning subdivisions.

In the case of a tie, the subdivisions will share the win. Winning subdivisions will be announced at each site of Imperial war 2010 and (if I can afford it) a plaque or trophy containing the name of the subdivision and its crown will be given to Their Imperial Majesties to hand down from crown to crown.

By holding this competition annually, Adrian heraldry will become something to envy in a very short time!

In Service,

Sir Coda der Sohn des Drachen Viggo von Seiken Lord Rammstein

Wappenkönig von Adria

Held Over/Pending

Connacht

Connacht – Shire of

Estate Badge; (Connacht – Estate of)

“Per pale Argent and Vert, six rocks one three and two all within a bordure Counterchanged.”

Researching rocks as individual period charges. To my eyes, this arrangement looks like a cinquefoil with no stem.

New Registrations

Albion

Frisch, Leonard

Personal Badge; Aka: Unknown

“[Fieldless]A gauntleted dexter fist palewise Or maintaining a hammer in bend sinister Proper.”

Alhambra
