HOW TO FIND THE ADRIAN EMPIRE'S COLLEGE OF ARMS

First lets start off by going to The Adrian Empire Website

<https://www.adrianempire.org>

You should land on the website's home page which looks similar to the following

When you scroll down the page you will see Ministries and each position is in Blue

the group. See the [Missile Weapons Manual](#) for details.

Archery is integrated into some combat scenarios. We use arrows made of fiberglass safety shafts with specially constructed padded tips and bows with limited power.

Arts and Sciences

Adrians strive to re-create various historical humanities. We research and reproduce objects that existed in period, using period construction techniques whenever possible. Examples include costuming, cooking, needlework, drawing, bardics (e.g. song and tale), wood and metal working etc. See the [Arts and Sciences Manual](#) for details.

Ministry service is the administrative side that holds Adria together. Adrian ministers take sign-ins, track member progress, monitor combat for safety issues, review arts and sciences projects, and prepare the national newsletter just to scratch the surface. If you want to help track or process information behind the scenes or even wear a crown and be the face of a region or the Empire itself, ministry service is for you. Just talk to someone doing a job and offer to help and they should be able to point you in the right direction.
