Gules, dexter and sinister wings debased argent and in base a heart Or.

Barony of Trinity Estate K-York (May/2005)
Purpure, dexter and sinister wings debased argent and in base a trefoil Or.

Held for re-draw

County of Ouroboros Estate K-York (May/2005)

Sable, dexter and sinister wings debased and in base a dragon with tail in mouth argent.

- *This is being held for a simple redraw. The Symbol known as the Ouroboros has been used outside the purview of Heraldry interchangeably with a dragon and a snake. Yet, as a Heraldic charge it should be represented as a snake (serpent) biting its own tail. Dragons are distinctive charges, having appendages and other characteristics. The redraw may be sent directly to the ISOA and will be registered once the correction is made and received.*

Returned

House Cadaron Estate K-Castilles (May/2005)

Azure, a anchor argent within a ships wheel Or.

- *Non period charge: The ship's wheel turns out not to be a period charge. "Even as late as the Mayflower (1620), ships were steered by a tiller below the half-deck, which connected directly to the rudder. (See Pictorial History of American Ships, John and Alice Durant, Barnes & Co., New York; 1953.) This is corroborated by the OED, which cites the first use of 'wheel' in connection with steering a ship in 1750. (See Vol. X, p. 905, under steering.)" [BDOM] The common heraldic wheels are the Catherine-wheel, Cart-wheel, Water-wheel, and Mill-wheel. (Parker 619-620.).*

Bishop of Castilles Device K-Castilles (May/2005)

Vert, a castle in chief a Fleur-de-Lis argent.

- *Conflict : Vert, a tower argent. [B-Terrin Greyphis, ESPE] Only one cd for fleur de lis. Tower's and castles are checked for conflict against each other.*
