

## Imperial Minister of Education Report

We have received a couple of reports for Education from Bisquaia and Connacht. We have asked for Syllabus from people who are holding Collegia. Syllabuses have been received from Bisquaia and from an Autocrating class I gave in January in Albion.

Contact was made with Sir Terrin in November about getting the web page set up, but no progress has currently been made on building a web page with the information we would like to put in it. If you have any ideas for sharing information, building Syllabus, establishing classes, or re-instituting the Colleges of War and Peace, please let me know.

Also, if anyone has Syllabus completed that they are okay with having posted on the website; I would like to be able to upload a variety of class guides to help people with Demos and Collegia ideas throughout the Empire.

Please remember, if you are holding classes, you must have an approved Syllabus. There are samples in the folders sections of the Imperial Groups for both Product and Non-product oriented classes.

Thank you,  
Ashlinn  
Imperial Minister of Education
