"Gules, upon a bend sable four bezants."

Conflict: Constantinople Badge "Gules, a bend sable." 12/07 Only 1 cd for addition of secondary charges- bezants

Vanyev Betzina Person Device

"Argent, a cross barby sable voided"

Returned for violation of HMRRA III.G. Fimbriation and voiding will only be permitted with simple geometric charges and **non-peripheral** ordinaries that have straight, non-complex lines. The use of Barby make the lines of the cross complex, much like a division line when going from plain to dancetty. It is also no more a simple geometric charge. A simple cross is a simple geometrical figure consisting of two lines or bars intersecting each other at a 90° angle, dividing one or two of the lines in half. After research, there is an argument for voiding such a charge, but the voiding itself would need to be simple, it

would need to look like a cross within the cross barby. It could not follow the complex lines of the barby. Though the rules do not allow even for this, I would consider other evidence along this line. An example is provided.

***Important consideration on this type of arms. I am hesitant with these arms whether they pass our rules our not. The Cross Barby/ Barbee, was used by the Arrow Cross Party, a pro-German anti-Semitic national socalist party during WW2. Also, Currently this design (almost identical to the one presented) is known as the Crosstar, a symbol used by the modern Nationalist Movement, a white supremacist group. Though we may all come from a place of innocence, we should always be mindful of how we present ourselves to the average bystander. The College of Arms will research and review further use of the Cross Barby voided and plain.

Transfers

Per chevron inverted Or and purpure, a rapier fesswise proper and in chief a mullet sable. [B-Campeo'n del Estoque, CAST]

Registration has changed to: [B-March de Leon, CAST]
